

**ZECH ENGINEERING**

# Why Your Facility Needs an Arc Flash Study

- ✓ **Regulatory Compliance**  
Meet NFPA 70E and OSHA requirements. Avoid costly fines and liability.
- ✓ **Business Continuity**  
Minimize unplanned outages, equipment damage, and operational disruptions.
- ✓ **Employee Safety**  
Prevent serious injuries by identifying hazards and labeling equipment with proper PPE requirements.
- ✓ **Cost-Effective Risk Management**  
Uncover system issues like miscoordination or overloading before they cause downtime or damage.
- ✓ **Legal & Insurance Protection**  
Demonstrates due diligence. Reduces liability and may lower insurance premiums.
- ✓ **Turnkey Service**  
Handled by a licensed Professional Engineer. We manage everything including data collection, analysis and labeling.
